

I moved to Rohnert Park from Oroville CA, where I used to listen to K-LOVE, and when I moved, I didn't think that it was in this area. Although I happily came across it one day. I listen to it 91.9 in my car, on my clock radio, at work and even in my radio in the shower. It is a very important part of my day. It encourages me and helps me remember that God is with me always. Because K-LOVE has so many different broadcast areas I know that even when I am traveling will I be able to listen to it. I understand the there is a proposal to alter some things involving FM translators and make LPFM a priority. I would just like to ask you to rethink this because it could change the availability that exists for K-LOVE right now. Thank you for your time.
